
State Water Resources Control Board

Mr. Nick Puig (via email nick.puig@exxonmobil.com)
ExxonMobil Environmental Services Company
981 W. Arrow Highway #473
San Dimas, CA 91773

Dear Mr. Puig:

REVIEW OF CLOSURE DENIAL FOR PETROLEUM UNDERGROUND STORAGE TANK CASE, MOBIL #99-A8Q, 3000 WEST LINCOLN AVENUE, ANAHEIM, ORANGE COUNTY

State Water Resources Control Board (State Water Board) Resolution No. 2012-062 requires that State Water Board staff review a lead agency's decision when the lead agency has denied a request by a responsible party for an underground storage tank (UST) case closure pursuant to the Low-Threat UST Case Closure Policy (Policy).

State Water Board staff completed a review of the Santa Ana Regional Water Quality Control Board (Regional Water Board) decision to deny case closure for Mobil #99-A8Q Property located at 3000 West Lincoln Avenue, Anaheim, Orange County (Site).

This Site has the following identification numbers:

- GeoTracker No. T0605901504
- Regional Water Board Case No. 083002015T

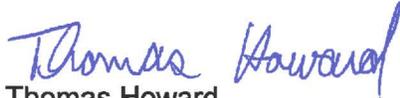

After careful consideration of the GeoTracker record for this Site, I have determined that this Site does not meet Policy criteria.

After careful consideration of the GeoTracker record for this Site, I have determined that this Site does not meet Policy criteria. State Water Board staff agrees with the Regional Water Board staff assessment that the vertical extent of the release has not been delineated below 50 feet below ground surface. General and Media-Specific criteria for Groundwater have not been satisfied.

The criteria of low-threat case closure have not been met at this time, and therefore, closure of the UST case is not appropriate.

If you have any questions, please contact Benjamin Heningburg at (916) 341-5493 or benjamin.heningburg@waterboards.ca.gov.

Sincerely,

Thomas Howard
Executive Director
