
State Water Resources Control Board

Mr. Nick Puig
ExxonMobil Oil Environmental Services Company
981 West Arrow Highway, #473
San Dimas, CA 91773

Dear Mr. Puig:

REVIEW OF CLOSURE DENIAL FOR PETROLEUM UNDERGROUND STORAGE TANK
CASE, MOBILE STATION #11KKX, 3018 WEST MANCHESTER BOULEVARD,
INGLEWOOD, LOS ANGELES COUNTY

State Water Resources Control Board (State Water Board) Resolution No. 2012-062 requires that State Water Board staff review a lead agency's decision when the lead agency has denied a request by a responsible party for an underground storage tank (UST) case closure pursuant to the Low-Threat UST Case Closure Policy (Policy).

State Water Board staff completed a review of the Los Angeles Regional Water Quality Control Board (Regional Water Board) staff decision to deny case closure for Mobile Station #11KKX located at 3018 West Manchester Boulevard, Inglewood, Los Angeles County (Site).

This Site has the following identification numbers:

- GeoTracker No. T10000001562
- Regional Water Board Case No. I-09419B

After careful consideration of the GeoTracker record for this Site, State Water Board staff has determined that this Site does not meet the general criteria of the Policy because the secondary source has not been removed to the extent practicable. Based on the record, the soil vapor extraction system was still removing approximately 200 pounds of total vapor phase petroleum hydrocarbons per day when the system was shut-down in March 2013.

The criteria of low-threat case closure have not been met at this time and, therefore, closure of the UST case is not appropriate.

If you have any questions, please contact Ben Heningburg at (916) 341-5749 or BHeningburg@waterboards.ca.gov.

Sincerely,

Thomas Howard
Executive Director
